1. Adversarial Researcher Debate Synthesis

■ Bull Researcher Thesis:

- Secular tailwinds & enterprise market leadership.
- High gross margins with compounding cash flows.
- Downside protected by deep institutional accumulation.

■ Bear Researcher Thesis:

- Multiples reflect aggressive growth optimism.
- Higher-for-longer macro rates could restrict capex.
- Resistance ceiling may cause temporary consolidation.

2. Tactical Trading Plan & Risk Management Committee

Trader Execution Order: BUY / ACCUMULATE (Target allocation: 4.5% equity weight)

- **Entry Band:** \$125.93 – \$129.78
- **Protective Stop Loss:** \$118.22 (Max Risk: 6.5%)
- **Profit Target 1:** \$141.35 | **Profit Target 2:** \$156.77
- **Risk Committee Verdict:** APPROVED with stop loss guardrails and staggered limit tranche execution.
