1. Bull vs Bear Researcher Debate Synthesis

Bull Researcher Thesis:

- Live CMP at Rs. 1279.0 (-1.23%).
- Structural demand and moat in Energy Minerals.
- DII SIP inflows providing persistent downside absorption.

Bear Researcher Invalidation:

- P/E ratio at 23.2 requires sustained execution.
- Multiple compression risk during market pullbacks.
- Thesis invalidated if delivery volumes contract.

2. Institutional Scenario & Execution Framework

Institutional Stance: STRONG SELL (Target allocation: 3.5% – 5.0% equity weight)

- Live Market Price (CMP):** Rs. 1279.0 (-1.23%) verified on TradingView
- Growth Scenario:** Accumulate on orderly pullbacks with high institutional delivery volume confirmation
- Invalidation Scenario:** Sustained quarterly revenue miss or breakdown below 20-day delivery volume average
- Risk Committee Verdict:** APPROVED with capital risk strictly capped at max 2% account exposure.
